Dear Brother Hoekstra,

I am writing on behalf of the working people of the Milwaukee Area Labor Council in support of the organizing campaign by Milwaukee Art Museum workers to join the Machinists Union (IAMAW). We firmly believe the lives of workers are always enhanced when they are able to join together in a union.

We are thrilled that more than 150 workers at the Milwaukee Art Museum are coming together to benefit from the same voice and protections that security guards have enjoyed for decades. Now more than ever, it's crucial for workers to stand together for workplace standards and family supporting wages and benefits.

Again, on behalf of the Executive Board and all the affiliated unions of the Milwaukee Area Labor Council, we stand full heartedly in solidarity with the organizing campaign at the Milwaukee Art Museum and offers our support in any capacity possible. Good Luck!

In Solidarity,

Pam Fendt, President
Milwaukee Area Labor Council
